FYP WEEKLY PROGRESS REPORT

(Week: October 13 – October 19, 2025)

- **TEAM LEAD:** Aqsa Shehzad
- **MEMBER 1:** Sehrish Akram
- **MEMBER 2:** Farwa Eiman Arif
- **MEMBER 3:** Ayesha
- **PROJECT MANAGER:** Dr. Muhammad Ilyas
- **PROJECT SUPERVISOR:** Dr. Hafiz Muhammad Faisal Shehzad

PROJECT TITLE: " Bridging Healthcare Gaps With AI "

➤ SUMMARY OF ACHIEVEMENTS THIS WEEK:

For project planning and official documentation, this week was important. Completing the Software Requirements Specification (SRS) document and meeting our Supervisor and Project Manager's expectations were the main priorities.

✓ KEY TASKS COMPLETED:

TASK	STATUS	DETAILS
Supervisor Meeting for SRS Guidelines	Completed	We held an important meeting with our Supervisor on **16th October**. The goal of this meeting was to fully understand the required guidelines and standards for the software requirement specification (**SRS) document**. The main objective was to achieve complete alignment on the structure, content, and quality expected for the final requirements document. So, We received clear, detailed feedback and specific instructions from our

		supervisor, which were immediately used to structure and complete the document accurately.
Completion of the SRS Document	Completed	Our team prioritized and successfully completed the final draft of the **Software Requirements Specification (SRS) document**. The comprehensive SRS document, which details all Functional (The core features and expected behaviors of the system), non-Functional requirements (Critical criteria such as performance objectives, security standards, and usability goals) and External Interface requirements (Hardware Interface, Software Interface, Communication Interfcae) is now ready.
